

Barbara Wilson je ustanoviteljica in direktorica organizacije Working with Cancer. Dokler septembra 2012 ni zapustila korporacijskega okolja, je bila zaposlena kot direktorica kadrovskih služb v različnih britanskih in mednarodnih podjetjih.

Po svoji osebni izkušnji z rakom dojke je leta 2014 Barbara ustanovila Working with Cancer kot socialno podjetje, ki nudi storitve usposabljanja, izobraževanja in svetovanja vsem, ki so zboleli za rakom (bolnikom z rakom, negovalcem, sodelavcem, prijateljem in družini) za lažje obvladovanje dela, vračanja na trg dela oziroma delovno mesto med diagnozo raka in po njej. Sodelavci podjetja so vsi preboleli rak ali pa jih je rak močno prizadel. Delujejo po vsej Veliki Britaniji in širše v Evropi.

Working with Cancer je ustanovna članica Evropske pobude Preoblikujmo raka dojk skupaj, članica globalne zveze ABC ter EPCP in podpornica ECO. Barbara Wilson redno predava na evropskih, nacionalnih in lokalnih konferencah in dogodkih o raku, in sicer na področju vprašanj, povezanih z izzivi obvladovanja raka na delovnem mestu.

Barbara Wilson is the founder and Director of Working With Cancer. Until she left corporate life in September 2012 she worked as a senior HR Director at a variety of UK and international companies.

Following her personal experience of breast cancer, in 2014, Barbara launched Working With Cancer as a Social Enterprise providing coaching, training and consultancy services to anyone affected by cancer (those with cancer, working carers, colleagues, friends and family) to manage work, return to work or find work during and after a diagnosis of cancer. The Company's associates are all cancer survivors or have been profoundly affected by cancer. They work throughout the UK and in Europe.

Working With Cancer is a founding member of and a contributor to the European Transforming Breast Cancer Together Initiative, a member of the ABC Global Alliance, and the EPCP and a supporter of ECO. Barbara regularly speaks at European, national and local cancer conferences and events about the issues connected with and challenges of managing cancer in the workplace.
